

Supplemental Online Material S1. The Good Reporting on a Mixed Methods Study (GRAMMS) criteria

Guideline	Section: page
Describe the justification for using a mixed methods approach to the research question	Introduction: page 4
Describe the design in terms of the purpose, priority and sequence of methods	Methods- under study design: page 5
Describe each method in terms of sampling, data collection and analysis	Methods- under “Context and study population”: page 5, 6 Methods- under “Phase 1 – Using surveys to identify important barriers”: page 6, 7 Methods- under “Phase 2 – Using focus groups to discuss these important barriers”: page 7, 8, 9
Describe where integration has occurred, how it has occurred and who has participated in it	Methods- under “Integration – Using the survey findings to build focus group topic guides”: page 7 Results- under “Integration – Using the survey findings to develop focus group topic guides”: page 11

Describe any limitation of one method associated with the present of the other method	Methods- under “Study design”: page 5
Describe any insights gained from mixing or integrating methods	Results- under “Phase 2 – Key barriers and solutions to overcome these barriers”: page 11 – 18
