

Introductory Videos for “Reef Survivor”

- Parts of undergraduate lectures by Dr. Martindale, uploaded to the Texas Data Repository: doi: 10.18738/T8/S3KWT7.
 - Mechanisms of Evolution (10 mins; uploaded as an mp4)
 - Speciation (5 mins; uploaded as an mp4)
 - Measures of Diversity (120 mins; uploaded as an mp4)
- There is also a great EONS video: How Evolution Works (And How We Figured It Out) (11 mins) <https://youtu.be/dyiZaHIRM6w>
- For younger audiences, the Amoeba Sisters have nice videos about Genetic Drift (www.youtube.com/watch?v=W0TM4LQmoZY) and Natural Selection (<https://youtu.be/7VM9YxmULuo>)!
- PBS Learning Media:
 - [What are corals?](#)
 - [Where are Coral Reefs Found?](#)
 - [What is Ecology?](#)
