

Supplementary Material 1

Figure S1. Meta-regression on the basis of number patients

Figure S2. Meta-regression on the basis of mean age

Figure S3. Meta-regression on the basis of percentage of male

Figure S4. Meta-regression on the basis of disease duration

Figure S5. Meta-regression on the basis of EDSS

Figure S6. Meta-regression on the basis of duration of follow-up

Figure S7. Meta-regression on the basis of baseline median Gd+lesion volume

Figure S8. Meta-regression on the basis of baseline mean Gd+lesion number

Figure S9. Meta-regression on the basis of baseline median T2 lesion volume

Figure S10. Meta-regression on the basis of new or enlarging T2 lesions per year

Figure S11. Meta-regression on the basis of new or enlarging Gd+ lesions per year
