Land-use and land-cover classes

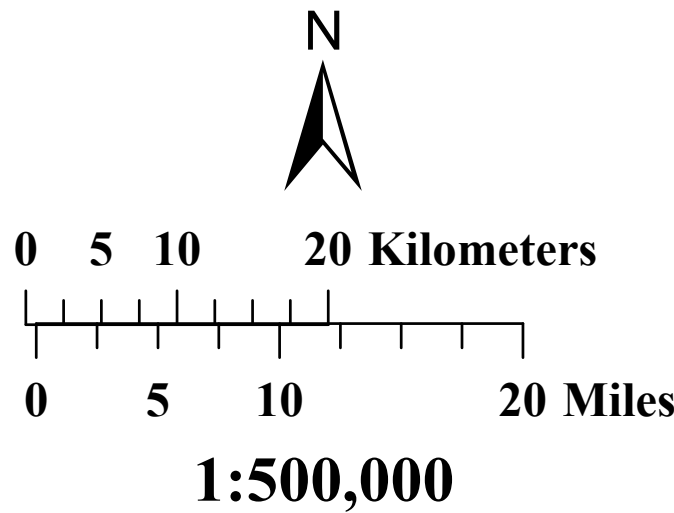

AUTHORS: MARK A. DRUMMOND
MICHAEL P. STIER
JAY DIFFENDORFER

U.S. Geological Survey, Denver, Colorado

EXPLANATION: Eight land-use and land-cover (LULC) classes were mapped across the entire study area (1,023,060 hectares) for 1937, 1957, 1977, and 1997. A subset of this area was mapped using a more-detailed LULC classification and is shown in the supplemental material.
