

Supplementary Figure S4. Informations of *M. shigaense* protein-coding genes. (A) Expression distribution of *M. shigaense* protein-coding genes. (B) Expression values of *M. shigaense* protein-coding genes. Plus values are for plus-strand genes, and minus values for minus-strand genes. (C,D) Length distribution of de novo transcripts and protein-coding genes of *M. shigaense*.
