Appendix B – Global distribution of the studies retrieved from this review of literature. The legend provides an indication of the size of the circles for selected reference values, including the minimum and maximum number of studies.

Appendix C – The global distribution of drivers and pressures to island ecosystems and their services. The legend identifies the pressures and threats, and provides an indication of the size of the pie charts for selected reference values, including the minimum and maximum values, and according to the frequency by which the pressures appeared in the literature.
