- Provincial capitals
- ▭ Lombardy region boundary
- ⋯ Biogeographic regions boundary
- ▭ Administrative province boundary
- Main lakes
- Main hydrographic network
- ▨ Natura 2000 network
- 9130 "Asperulo-Fagetum beech forests"
- 6520 "Mountain Hay Meadows"
- 4060 "Alpine and boreal Heaths"

Habitats distribution in this map refers to those already mapped within Natura 2000 network (Brusa G., Cerabolini B.E.L., Corti A., De Molli C, 2016; URL:<http://www.biodiversita.lombardia.it>), and those modelled outside the network. The biogeographic boundary splits the region in Alpine (north) and Continental (south) regions.
