

Supplementary Materials

Pd–H and Ni–H Phase Diagrams using Cluster Variation Method and Monte-Carlo Simulation

Natacha Bourgeois^a, Pierre Cenedese^a, Jean-Claude Crivello^a and Jean-Marc Joubert^a

^aUniversité Paris Est, ICMPE (UMR 7182), CNRS, UPEC, F-94320 Thiais, France

1. Density of states (DOS) of Ni without spin polarisation (SP)

2. Density of states (DOS) of Pd (without SP) and Ni (with SP)
