

Supplementary Table 1: Current Procedural Terminology (CPT) codes identifying pulmonary function tests.¹

CPT code	Procedure
94010	Spirometry
94150	Vital capacity
94060	Spirometry with bronchodilation
94726-94729	Plethysmography, gas dilution/washout, impulse oscillometry, diffusing capacity
93720-93722	Plethysmography
94240	Functional residual capacity
94260	Thoracic gas volume
94350	Maldistribution of ventilation
94360	Airway resistance
94370	Closing volume
94720	Diffusing capacity of the lung for carbon monoxide (D_{LCO})
94725	Membrane D_{LCO}
