HH, Hyperhidrosis;

Supplementary Table 3. Univariable analysis with self-reported hyperhidrosis

	Prescriptions for antibiotics			Prescriptions for topical antifungals			Prescriptions for antivirals		
	HR	95% CI	p-value ^a	HR	95% CI	p-value ^a	HR	95% CI	p-value ^a
Self-reported HH	1.28	1.07–1.53	0.0060	1.08	0.86–1.34	0.52	1.06	0.77–1.45	0.74
Female sex	0.98	0.87–1.10	0.76	0.84	0.72–0.97	0.017	2.71	2.26–3.27	<0.001
Age 10 y	0.98	0.94–1.03	0.55	0.82	0.77–0.89	<0.001	0.89	0.84–0.94	<0.001
Smoking	1.22	1.05–1.42	0.0094	0.96	0.77–1.18	0.68	1.15	0.92–1.43	0.23
BMI	1.03	1.02–1.05	<0.001	1.01	0.99–1.02	0.97	0.97	0.95–0.99	0.0063
Inclusion in warm season	1.06	0.93–1.22	0.40	0.82	0.69–0.97	0.024	1.07	0.96–1.20	0.79

Age 10 y, 10 years increment in age; BMI, Body Mass Index; CI, Confidence Interval; HH, Hyperhidrosis; HR, Hazard Ratio;

^ap-value of the association between the outcomes prescriptions for antibiotics or topical antifungals and the predictors listed in the table

Supplementary Table 4. Univariable analysis with hospital diagnosed hyperhidrosis

	Prescriptions for antibiotics			Prescriptions for topical antifungals			Prescriptions for antivirals		
	HR	95% CI	p-value ^a	HR	95% CI	p-value ^a	HR	95% CI	p-value ^a
Hospital diagnosed HH	1.36	1.07–1.74	0.013	1.55	1.13–2.12	0.0066	2.07	1.07–3.99	0.030
Female sex	1.11	1.07–1.15	<0.001	0.85	0.79–0.90	<0.001	2.38	2.17–2.62	<0.001
Age 10 y	1.00	0.99–1.01	0.56	0.83	0.83–0.85	<0.001	0.85	0.83–0.88	<0.001
Smoking	1.22	1.16–1.28	<0.001	0.96	0.88–1.05	0.37	0.98	0.87–1.10	0.72
BMI	1.03	1.03–1.04	<0.001	1.00	0.99–1.00	0.11	0.95	0.94–0.97	<0.001

Age 10 y, 10 years increment in age; BMI, Body Mass Index; CI, Confidence Interval; HH, Hyperhidrosis; HR, Hazard Ratio;

^ap-value of the association between the outcomes prescriptions for antibiotics or topical antifungals and the predictors listed in the table
